

Colleagues,

I am proposing the establishment of Citizen's Advisory Committee (CAC) within Marco Island City Council. This will be an AD-HOC Committee.

The committee will serve as a vital bridge between residents and Marco Island government, fostering open communication, enhancing resident engagement, and improving the overall quality of life within the community.

CAC will be a formally constituted body comprised of a diverse group of residents representing various demographics, interests, and perspectives within the community.

CAC will gather Citizen's Input, conduct regular surveys and consultations to gather citizen's feedback on issues affecting the community.

CAC will offer suggestions for improving community services and amenities, develop and advocate for initiatives that enhance the quality of life for residents.

CAC will foster a sense of community ownership and pride, strengthen social cohesion and build stronger relationships between residents and the City Council.

Forming Citizen's Advisory Committee will Increase transparency and accountability.

CAC will provide a platform for citizen's to voice concerns and seek resolutions.

CAC will ensure that Citizen's input is considered in decision-making processes.

Committee membership is open to all citizen voters of the City of Marco Island.

CAC members will be appointed by Marco Island City Council.

The establishment of a Citizen's Advisory Committee is a crucial step towards building a more inclusive, responsive, and vibrant community. By actively engaging residents in the decision-making process. Marco Island Government can enhance its service delivery, improve community satisfaction, and foster a stronger sense of belonging for all citizens.

Sincerely,

Councilor Tamara Goehler
