RWPF Advanced Water Treatment Evaluation

December 20, 2025

The following summarizes the work activities performed from November 21, 2025 through December 19, 2025 for the RWPF Advanced Water Treatment Evaluation:

Task 1 Project Management & Kick off meeting

- Continued project management activities, including maintaining tracking systems, managing budgets and schedules, and preparing monthly invoices and status reports.

Task 2.1 – Facility Assessment

- Completed an assessment of the existing RWPF based on review of the existing documentation.
- This task has been completed.

Task 2.2 – Regulatory Compliance Evaluation

- Continued establishing the Advanced Water Treatment standards needed for the evaluation.

Task 2.3 – Treatment Alternatives Analysis

- Continued modeling and sizing of each alternative.
- Followed up with Nuquatics via email regarding pending information; no response has been received to date.

Task 2.4 – Opinion of Probable Cost – CAPEX and OPEX

- This task has not been started.

Task 2.5 – Alternatives Evaluation Report

- Continued making progress on drafting the report.

Task 3 City Council Presentation (Optional)

- This task has not started.
