1 Introduction

The City of Marco Island contracted Apex to collect bi-directional 24-hour traffic data within the City of Marco Island, in Collier County. A total of sixteen (16) locations were observed during peak season to assess current roadway volumes. These 16 locations were counted for a period of seven (7) days, during February 2026 through to April 2026. The selected data collection locations are shown in **Figure 1-1**.

3 Level of Service (LOS) Summary

A link level of service (LOS) analysis was conducted for each study segment utilizing the collected field counts. LOS analysis herein is based on the adopted LOS performance standard obtained from the *FDOT Generalized Service Volume Tables*. The summary of roadway LOS analysis for peak hour two-way volumes is provided in **Table 3-1**.
