Yes

Qualifications

**Please list your community activities and positions held (Example: Civic clubs, neighborhood associations, etc.):**

MICA Board of Directors

Marco Utility Advisory Committee

Beach and Coastal Resources Advisory Committee

**Why do you want to serve on a committee?**

I feel we need to add a trained and experienced professional to the committee with the experience in Coastal Barrier Island Protection from Sea Level rise and increased frequency of gulf storms. I am an experienced engineer and partner and have dealt with all of these issues in the past and present. I edited and advise on the recent book "Coastal Defense in an Era of Sea-Level Rise" by Dr. David M. Rasmussen, Jr. Phd. Princeton University.

**What issues do you think should be addressed by this committee?**

The most critical issues are Sea Level Rise, Coastal and Barrier island protection of infrastructure, protecting private and public property and maintaining a natural ambiance to our island. We must find ways to do it with the resources and financial constraints, we have available.
