Dear Ms. Holden:

In response to staff review comments regarding the above referenced Rezone application, we offer following:

PLANING REVIEW

PLANS REVIEW V. 1 – MARY HOLDEN (6/4/24/23) – REQUIRES RE-SUBMIT

1. The waiver to providing habitat identification, etc., is based on the statement that the site is clear when it is not clear nor has any vegetation removal permit been issued. Provide information.

Response: The waiver has been revised accordingly.

2. Remove references to setbacks. Setbacks are addressed in the Land Development Code and will be reviewed at the site development plan review stage.

Response: The only references to setbacks were within the Conceptual Site Plan provided at first submittal, please omit that document for future reference.

CONDITION(S): BUILDING – ENVIRONMENTAL SURVEY

1. Prior to construction, environmental wildlife survey is required by an authorized agent (<https://app.myfwc.com/maps/gtmapping/gtpermitmap.html>).

Response: Acknowledged.
