The following criteria, (pursuant to Ordinance 03-) shall be used as a guide by staff in determining its recommendation to The City of Marco Island Planning Board in its decision to approve or deny a particular dock extension request. Please provide a **narrative** response to the listed criteria and/or questions. Attach additional pages if necessary.

- 1. Does the proposed boat docking facility meet the other standards (setbacks, height, etc.) set forth in Ordinance 03-?**

Existing permitted dock structure. No construction involved with this application.

---

---

---

---

---

- 2. Is there sufficient water depth where the proposed vessel(s) is to be located (as a general guide, -4 feet mean low water is deemed to be sufficient) to allow for safe mooring of the vessel?**

Yes. At MLW depth of water at site is approximately 6 feet.

---

---

---

---

---

3. Are there any special conditions related to the subject property or waterway which justify the proposed dimensions and location of the proposed boat docking facility?

Yes. Proposed mooring of the vessel will have zero navigational impact in the waterway.

---

---

---

---

---

4. Does the proposed boat docking facility and moored vessel protrude greater than 25% of the width of the navigable waterway and is a minimum of 50% of the waterway width between dock structures/moored vessel(s) on the opposite side of the waterway maintained in order to ensure reasonable waterway width for navigability?

Yes.

---

---

---

---

---

5. Is the proposed dock of minimal dimensions necessary in order to adequately secure the moored vessel while providing reasonable access to the boat for routine maintenance without the use of excessive deck area?

Yes.

---

---

---

---

---

6. Is the proposed structure of minimal dimensions and located (designed) to minimize the impact of view to the channel by surrounding property owners?

Yes.

The proposed mooring of the vessel will not interfere with views according to riparian rights.

7. Is the moored vessel in excess of 50% of the length of the waterfrontage such that the addition of a dock structure will increase the impact on or negatively impact the view to the waterway by surrounding property owners? (In the case of multi-family developments and public marinas, the 50 percent provision may be exceeded).

Yes. The water frontage is 80 feet, the vessel is 42 feet in length.

8. Will the proposed location and design of the boat docking facility and moored vessel(s) be such that it may infringe upon the use of neighboring properties, including any existing dock structures?

No.

10. Regarding existing benthic organisms in the vicinity of the proposed extension:

a. Are seagrasses located within 200 feet of the proposed dock?

N/A. Existing permitted structure.

**b. Is the proposed dock subject to the manatee protection requirements in Sec 10 of Ordinance 00-04?**

N/A. Existing permitted structure.
