

Beach and Coastal Resource Advisory Committee

Meeting Date: December 18, 2024

TO: Beach and Coastal Resource Advisory Committee
FROM: Mary Holden, Planning Manager
DATE: December 12, 2024
RE: Update on Bucket Tree for trash pick up

Per the instruction of the Committee, we ordered 100 black buckets at the end of the fiscal year. We did not order the decals, hoping by not having the City of Marco Island logo on them they would be returned. Well, that didn't work out the way we had hoped. The buckets are disappearing. Currently we have 75 left.

The challenges we face are continue replenishing the bucket trees, knowing they will not be returned; drill holes or buy buckets with a mesh, which can be used for shells; remove the bucket trees; add signage that states do not take if you do not pick up trash and return; or any other idea or thought.
