Standard Rezoning Considerations (LDC Section 30-62(c)(3) b.1-18)

1. Whether the proposed change will be consistent with the goals, objectives, and policies and future land use map and the elements of the growth management plan.
2. The existing land use pattern.
3. The possible creation of an isolated district unrelated to adjacent and nearby districts.
4. Whether existing district boundaries are illogically drawn in relation to existing conditions on the property for the proposed change.
5. Whether changed or changing conditions make the passage of the proposed amendment necessary.
6. Whether the proposed change will adversely influence living conditions in the neighborhood.
7. Whether the proposed change will create or excessively increase traffic congestion or create types of traffic deemed incompatible with surrounding land uses, because of peak volumes or

*projected types of vehicular traffic, including activity during construction phases of the development, or otherwise affect public safety.*

8. *Whether the proposed change will create a drainage problem.*
  9. *Whether the proposed change will seriously reduce light and air to adjacent areas.*
  10. *Whether the proposed change will seriously affect property values in the adjacent area.*
  11. *Whether the proposed change will be a deterrent to the improvement or development of adjacent property in accordance with existing regulations.*
  12. *Whether the proposed change will constitute a grant of special privilege to an individual owner as contrasted with the public welfare.*
  13. *Whether there are substantial reasons why the property cannot be used in accordance with existing zoning.*
  14. *Whether the change suggested is out of scale with the needs of the neighborhood or the county.*
  15. *Whether it is impossible to find other adequate sites in the county for the proposed use in districts already permitting such use.*
  16. *The physical characteristics of the property and the degree of site alteration which would be required to make the property usable for any of the range of potential uses under the proposed zoning classification.*
  17. *Such other factors, standards, or criteria that the board of county commissioners shall deem important in the protection of the public health, safety, and welfare.*
9. **Deed Restrictions:** The City is legally precluded from enforcing deed restrictions, however, many communities have adopted such restrictions. You may wish to contact the civic or property owners association in the area for which this use is being requested in order to ascertain whether or not the request is affected by existing deed restrictions.
10. **Previous land use petitions on the subject property:** To your knowledge, has a public hearing been held on this property within the last year? If so, what was the nature of that hearing?  
No public hearings have been held on this property within the last year.
