RE: Marco Island Racquet Center —SLN/CR NanoBaffle Panels for Pickleball Courts

LETTER OF FULL SOURCE

This letter serves as official certification that **SLN/CR Panels LLC**. (herein referred to as SLN/CR) is the exclusive source and sole authority for the SLN/CR outdoor acoustic panel systems. SLN/CR maintains total proprietary control over the design, engineering, and supply chain for all products provided to the **Marco Island Racquet Center**.

While SLN/CR utilizes integrated manufacturing partners, we certify that we remain the **Full Source** provider based on the following controls:

- **Proprietary Raw Materials:** All specialized raw materials are purchased, owned, and supplied directly by SLN/CR. No third party is authorized to procure these materials for the production of our systems.
- **Exclusive Manufacturing Rights:** All fabrication is performed under the direct supervision and exclusive "Build-to-Print" specifications of SLN/CR. No third-party manufacturer has the right to replicate, sell, or distribute these systems independently.
- **Quality Control Ownership:** SLN/CR owns and enforces the proprietary quality control standards and performance specifications for every component.
- **Design Integrity:** SLN/CR holds all intellectual property and design rights. No substitutions or "equal" products exist, as the manufacturing process is unique to our controlled supply chain.

SLN/CR stands fully behind the authenticity and performance of every system. By controlling the raw material inputs and the technical specifications of production, we ensure that SLN/CR Panels is the only entity capable of delivering the specified NanoBaffle panels.

Sincerely,

Eliot Arnold
Chief Executive Officer
