Councilor Goehler shared her recent near-miss incident with an e-bike rider near City Hall and similar incidences that were conveyed to her by other residents of the Island. Assistant City Attorney David Tolces noted the City's limited ability to regulate e-bike usage in light of the State of Florida's statutes regarding their use, and Chair Palumbo proposed that individual Councilors and citizens petition their state representatives for action on this issue.

Councilor Gray observed that more careful management of trash could help reduce the rodent population on the Island.

Councilor Gray supported Councilor Goehler's request that an assessment of the maintenance efforts at Winterberry Park be reviewed and addressed as necessary.

Councilor Gray alerted the Council to the fact that drone operators can pilot their craft in and around public areas and the beaches without significant constraint.

Vice-Chair Champagne advised the Council that the completion of the Vietnam Veterans' Bronze Memorial for placement at Veterans Community Park is falling behind schedule and is unlikely to be installed before May, 2026. The formal unveiling and dedication ceremony will now likely be held on November 11, 2026 (Veterans Day). Vice-Chair Champagne urged his colleague Councilors and members of the public to petition their representatives in Washington, D.C. to exempt the Memorial from its current 19% country of origin tariff.

Councilor Schwan proposed that a Council review of the contract with Weiss Serota Helfman Cole + Bierman., P.L. (the City's legal counsel) be placed on the Council's Future Agenda. Chair Palumbo

19. Citizens' Comments

Ms. Victoria Myers (Bluebonnet Ct.) proposed that the characterization of the Florida Department of Environmental Protection's (DEP) dismissal of a citizen-led petition challenging the classification of the Marco Island Wastewater Treatment Plant's operating permit might not be described as a "Team Win" by

all members of the Marco Island community as noted in the Interim City Manager's Report (Agenda Item 10).

Ms. Myers displayed information regarding the allowable uses for deployed wastewater that are permitted under an agricultural use permit issued by DEP, and she questioned whether Marco Island qualifies as an agricultural community under this permit.

Mr. Elliott Mascoop (6th Ave.), thanked the Council for its work on behalf of the citizens of Marco Island. Mr. Mascoop also: 1) noted his many near-miss incidents with e-bike operators on the Island; 2) expressed his concern, as a horticulturist and the Chair of the Marco Island Waterways Advisory Committee, with the impact to the City's waterways of vehicles parking on the swales, and; 3) his intention to raise the issue of rodent bait boxes being present in, and poisoning, the City's canals with his colleagues on the Waterways Advisory Committee.

Mr. Mascoop also shared his concern with the procedure used by the Marco Island Police in taking noise decibel readings from the street, rather than from within an owner's home, when responding to an excessive residential property noise complaint.
