Dear City Council,

I strongly believe the new ALF, proposed park, and NCH Urgent Care Center are desperately needed for our island. Our Seniors deserve to live their lives with dignity when they no longer can care for themselves. Below are just some of the reasons this would be good for our caring community:

1. It allows residents to age in place in the community they know and love.
2. The ALF eliminates demands on our valued and overtaxed emergency systems for useless calls that can be handled by in-facility nursing staff.
3. The new park, ALF, and new urgent care center will upgrade the look and feel of the current area; thus increasing market values for neighboring residents.
4. I truly value the forthcoming, state-of-the art Urgent Care Center. What a tremendous and potential life-saving benefit to many in our community.

Thank you,  
Laura Adams  
Resident and Realtor on Marco Island since 1998
