Standard Rezoning Considerations (LDC Section 30-62(c)(3) b.1-18).

1. Whether the proposed change will be consistent with the goals, objectives, and policies and future land use map and the elements of the growth management plan.
2. The existing land use pattern.
3. The possible creation of an isolated district unrelated to adjacent and nearby districts.
4. Whether existing district boundaries are illogically drawn in relation to existing conditions on the property for the proposed change.
5. Whether changed or changing conditions make the passage of the proposed amendment necessary.
6. Whether the proposed change will adversely influence living conditions in the neighborhood.
7. Whether the proposed change will create or excessively increase traffic congestion or create types of traffic deemed incompatible with surrounding land uses, because of peak volumes or

*projected types of vehicular traffic, including activity during construction phases of the development, or otherwise affect public safety.*

- 8. Whether the proposed change will create a drainage problem.*
  - 9. Whether the proposed change will seriously reduce light and air to adjacent areas.*
  - 10. Whether the proposed change will seriously affect property values in the adjacent area.*
  - 11. Whether the proposed change will be a deterrent to the improvement or development of adjacent property in accordance with existing regulations.*
  - 12. Whether the proposed change will constitute a grant of special privilege to an individual owner as contrasted with the public welfare.*
  - 13. Whether there are substantial reasons why the property cannot be used in accordance with existing zoning.*
  - 14. Whether the change suggested is out of scale with the needs of the neighborhood or the county.*
  - 15. Whether it is impossible to find other adequate sites in the county for the proposed use in districts already permitting such use.*
  - 16. The physical characteristics of the property and the degree of site alteration which would be required to make the property usable for any of the range of potential uses under the proposed zoning classification.*
  - 17. Such other factors, standards, or criteria that the board of county commissioners shall deem important in the protection of the public health, safety, and welfare.*
9. **Deed Restrictions:** The City is legally precluded from enforcing deed restrictions, however, many communities have adopted such restrictions. You may wish to contact the civic or property owners association in the area for which this use is being requested in order to ascertain whether or not the request is affected by existing deed restrictions.
10. **Previous land use petitions on the subject property:** To your knowledge, has a public hearing been held on this property within the last year? If so, what was the nature of that hearing?
- No.

# **Exhibit “C”**

## Exhibit C - Evaluation Criteria

### **1. Whether the proposed change will be consistent with the goals, objectives, and policies and future land use map and the elements of the growth management plan.**

Yes. The Future Land Use designation for the areas impacted by this Amendment is Planned Unit Development. This PUD pre-exists Marco Island and this amendment does not change density or cause there to be intensities outside of the permitted range of land uses already existing in the PUD, consistent with Future Land Use Element Policy 3.2.7.

#### Policy 3.2.7

The Planned Unit Development future land use category is intended for existing Planned Unit Development (PUD) zoning districts only, that were adopted by Collier County prior to the incorporation of Marco Island and adoption of the City's Comprehensive Plan. Densities, intensities and the permitted range of land uses in this category are regulated by the site-specific PUD zoning ordinance(s). Any increase to the adopted density or intensity will require a finding of consistency with all applicable provisions of this Plan.

### **2. The existing land use pattern.**

The existing land use pattern in the area impacted by this amendment is residential and residential, recreational amenities.

### **3. The possible creation of an isolated district unrelated to adjacent and nearby districts.**

This amendment does not create a new district or change district boundaries.

This amendment extends residential, recreational amenity uses adjacent to existing residential, recreational amenity uses and updates uses and other standards. Thus, this amendment will not create an isolated district unrelated to adjacent and nearby districts.

### **4. Whether existing district boundaries are illogically drawn in relation to existing conditions on the property for the proposed change.**

The existing neighborhood boundaries are illogically drawn in relation to the existing conditions on the property in that the existing area in which recreational amenities may be constructed is smaller than what was originally planned and otherwise limited such that multiple variances have been granted that found sufficient buffering between existing recreational facilities and the nearby single-family homes (Collier County Resolutions 95-589 and 90-530).

### **5. Whether changed or changing conditions make the passage of the proposed amendment necessary.**

Changed conditions make the passage of the proposed amendment necessary. The hurricane, the growth of Hideaway, and the changing recreational amenities market make it necessary for the proposed amendment.

**6. Whether the proposed change will adversely influence living conditions in the neighborhood.**

The proposed amendment will positively impact the living conditions in the neighborhood because it will allow for an updating of recreational amenities.

**7. Whether the proposed change will create or excessively increase traffic congestion or create types of traffic deemed incompatible with surrounding land uses, because of peak hour volumes or projected types of vehicular traffic, including activity during construction phases of the development, or otherwise affect public safety.**

The proposed change will allow modifications to existing recreational amenities and, because Hideaway is a gated community and all roads in the vicinity are private roads, and the facilities serve existing residents, the traffic impacts should be negligible.

**8. Whether the proposed change will create a drainage problem.**

All modifications will be subject to site planning for review of drainage matters.

**9. Whether the proposed change will seriously reduce light and air to adjacent areas.**

No more than what is currently possible.

**10. Whether the proposed change will adversely affect property values in the adjacent area.**

No.

**11. Whether the proposed change will be a deterrent to the improvement or development of adjacent property in accordance with existing regulations.**

No. The vast majority of adjacent property is already adjacent to recreational amenities, and variances have been granted to allow locations consistent with all amendments for existing courts.

**12. Whether the proposed change will constitute a grant of a special privilege to an individual real property owner as contrasted with the public welfare.**

No. Additionally, the property owner is an association composed of all Hideaway owner and in that way represents the interests of the entire neighborhood.

**13. Whether there are substantial reasons why the property cannot be used in accordance with existing zoning.**

Yes. There is a need for additional recreational amenities and there are not other viable sites given current property ownership and build out in the Hideaway neighborhood.

**14. Whether the change suggested is out of scale with the needs of the neighborhood or the city.**

No. The existing area in which recreational amenities may be constructed is smaller than what was originally planned.

**15. Whether it is impossible to find other adequate sites in the city for the proposed use in districts already permitting such use.**

Yes.

**16. The physical characteristics of the property and the degree of site alteration which would be required to make the property usable for any of the range of potential uses under the proposed zoning classification.**

The proposed allowable uses are minimal in impact compared to the impact of what could otherwise be constructed.

**17. The impact of development on the availability of adequate public facilities and services consistent with the levels of service adopted in the city comprehensive plan and as defined and implemented through the city's adequate public facilities ordinance, as amended.**

The proposed allowable uses are minimal in impact compared to the impact of what could otherwise be constructed.

**18. Such other factors, standards, or criteria that the city council shall deem important in the protection of the public health, safety, aesthetics, and welfare.**

The applicant is an elected board of the members of the neighborhood that this impacts and the board, and by extension the neighborhood believes this to be in the best interest of the neighborhood.

Thank you.

Here are my proposed pre-app notes. Does this accurately represent our meeting? If not, what edits do you have?

Pre-App Notes:

1. This proposed application is a PUD language amendment under section 30-63(i)(1)c., LDC to the Hideaway Beach PUD, Collier County Ordinance 92-11, as amended.
2. Section 30-63(i)(1)c., LDC, states: "Language changes to a previously approved PUD document shall require the same procedure as for amending the official zoning atlas."
3. This proposed application amends sections IV, solely as to lots 1 and 2, Block 18, of the Hideaway Beach plat, and VI of the Hideaway Beach PUD.
4. The procedure for amending the zoning atlas is established in section 30-62, LDC.
5. The Standard Rezone Petition (PF-20) is the correct application form to be used for this application.
6. Section 30-62, LDC, does not require and the following submittals on page 7 of the Petition are **not** required under the LDC and are unnecessary for the review of this specific PUD language change:
  - a. Conceptual Site Plans
  - b. Environmental Impact Statement
  - c. The identification of habitat areas on aerial photography
  - d. Completed Utility Provisions Statement
  - e. Traffic Impact Statement (confirmed by Justin Martin as the roads are private, internal to the development and the change is negligible)
  - f. Historical & Archaeological Survey or Waiver Application
  - g. Copies of State and/or Federal Permits
7. The rest of the submittals on page 7 of the Petition are required, including a neighborhood information meeting
8. Staff's opinion is the fee for this language change amendment is \$6,000.00, which is the fee for a PUD Substantial Amendment, this however, does not change the fact that the approval process is as established in section 30-62, LDC, as this is a PUD language amendment under section 30-63(i)(1)c., LDC.
9. Playgrounds/Play fields do not have a minimum parking requirement.
