

Rodenticide Non-Poison Alternatives

Updated: Aprl 16, 2025

Product	Type	Manufacturer	Contact	Cost	Population	Secondary	Cost	Ease	Notes
Good Bites	Contraceptive bait	Wisdom Good Works	Alaina Gonzalez-White alaina@wisdomgoodworks.org	TBD					Pilot study at Mackle Park, bait has to be refilled often
Contrapest	Contraceptive bait	Senestech	866-886-7287	\$40 bait station kit					Bait has to be refilled often
RatX	Dehydration bait			\$12 8 oz package					Must use feeding trays/boxes and refill often - are claims of no secondary risk true?
GoodNature CO2 Trap	Impaling device	Gallagher		\$200 each					Must empty dead rats regularly and replace CO2 cartridges every 24 kills, holds multiple rats
Live Catch Rat Trap	Spring trap	Big Pete, and others		\$30-50 each					Has to be emptied with live rats and does not control population unless they are killed instead of released
EZ Snap Bait Station	Enclosed snap trap		domyown.com	\$34					Must empty dead rat, only holds one
Tomcat Rodent Repellent	Cayenne pepper deterrent	Tomcat		\$34 gallon					Apply every 30 days and after storms, does not control rat population
Snap Trap	Wire spring trap	Multiple		\$5-34 each					1 time use, must dispose of, not a good choice outdoors due to risk of unintentional triggering (pets, kids, toes...)
Detour Gel Rat Repellent	Deterent		domyown.com	\$20-30 10 oz tube					Deters entry, once a year application, applies like caulk to entry areas, does not control rat population
Rat Zapper	Electical shock device	Victor, and others		\$65 each					Must empty dead rats regularly, have to replace batteries after 60 kills, holds multiple rats, indoor only - not a good choice outdoors
