

The June 30, 2026 utility bill spans two pages and reflects the billing correction in two separate components: a Water credit and a Sewer credit. To simplify the presentation of the bill, the individual monthly utility charges have been totaled separately from the billing credits. The total monthly charges were then deducted from the total billing credit to determine the remaining credit balance due to the customer.

Charges - 6/30/26		Credit
\$122.13	Drinking Water	(\$48,690.96)
\$485.46	Wastewater	(\$69,465.77)
\$899.17	Total Credit	(\$118,156.73)
\$89.87		
\$239.73		
\$733.77		
\$73.36		
\$189.58	Total Credit	(\$118,156.73)
\$753.60	Charges	\$5,414.40
	Remaining Credit	(\$112,742.33)
\$287.72		
\$1,540.01		
\$5,414.40
