Re: Amending The Code Of Ordinances To Allow For Legal Notices And Advertising On The Collier County Clerk Of Courts Website

Effective January 1, 2023, House Bill 7049 amended Chapter 50, Section 50.0311, Florida Statutes, to permit municipalities the opportunity to publish required legal notices and advertisements on a publicly accessible website (County Website).

Previously, all legal notices were required to be published in a newspaper of general circulation.

The City currently budgets approximately \$40,000–\$42,000 annually for legal noticing. The County has confirmed that there will be no cost to the City to post legal notices on the Collier County Clerk of Courts website.

Pursuant to Section 50.0311, all legal notices—except those related to Comprehensive Plan amendments, annexations, vacations, millage rates, and local ordinances—may be published on the County’s website, provided the City:

- Obtains approval from the City Council;
- Publishes notice of the change in publication method in a newspaper of general circulation at least once per year;
- Provides residents the option to receive notices via email or first-class mail upon registration with the City, and;
- Accepts all bids electronically.

To maximize the number of notices eligible for publication on the County’s website, the City recommends that the Planning Board approve the attached ordinance, which amends certain provisions of the Land Development Code and other miscellaneous sections of the City Code.

Transitioning legal notices from newspapers to the County’s website will provide the following benefits:

- **Increased public access and transparency:** Newspaper circulation continues to decline and broadband penetration high on Marco Island with approximately 94% of Marco Island households having broadband access (U.S. Census Bureau, 2019–2023 American Community Survey). Website notices will remain posted for multiple days, compared to a single-day newspaper publication. The City will also provide a direct link from its homepage to the County’s legal notice webpage.

- **Improved staff efficiencies:** Affidavits of publication will be available more quickly through the County Clerk, and staff time associated with newspaper billing, payment processing, and reconciliation will be eliminated.
- **Cost savings:** Reduced legal noticing expenses may allow City resources to be redirected to other community priorities.
