Good afternoon,

I am the owner of 351 S Heathwood and I see many cars parked illegally on my lot, swells, and even in the park grounds. For the group that asks for permission for a mini boat practice tournament I have advised that this is the last year because I will apply for a permit to build a house on the lot and from there on I will do my part if I see cars parked illegally in the area. Now I hear that there is a request to give parking permission to park in the park and a possibility that will be permanently granted. That is for sure not acceptable as it was never designed for a parking area and if the boating club members can park there other users will too and I can see the out-of-control situation happening. Parking in that area is incorrect and just like we follow other rules around the city that should be the same.

I ask that you please make sure that everyone understands that the parking location is by the parking lot offered by the main building.

If the intention is to have more parking we should talk about the city purchasing my lot and make a legit social parking that will serve the community and not just a niche of users.

Please let me know if you have any questions

Thank you
