3.2 The execution of this Agreement shall not be a commitment to the Contractor to order any minimum or maximum amount. 3.3 ☒ The procedure for obtaining Work under this Agreement is outlined in **Exhibit A – Scope of Services** attached hereto.

3.4 ☒ The County reserves the right to specify in each Request for Quotations: the period of completion; collection of liquidated damages in the event of late completion; and the Price Methodology selected in 4.1.

4. **THE AGREEMENT SUM.**

☒ The County shall pay the Contractor for the performance of this Agreement based on Work performed pursuant to the quoted price offered by the Contractor in response to a specific Request for Quotations and pursuant to the Price Methodology in Section 4.1. ☐ ~~Contractor's quoted prices shall be based on **Exhibit B – Fee Schedule**. Payment will be made upon receipt of a proper invoice and upon approval by the County's Contract Administrative Agent/Project Manager, and in compliance with Chapter 218, Fla. Stats., otherwise known as the "Local Government Prompt Payment Act," and as more expressly provided for herein.~~

4.1 **Price Methodology (as selected below):**

☒ **Lump Sum (Fixed Price):** A firm fixed total price offering for a project; the risks are transferred from the County to the contractor; and, as a business practice there are no hourly or material invoices presented, rather, the contractor must perform to the satisfaction of the County's project manager before payment for the fixed price contract is authorized.

☐ **Time and Materials:** The County agrees to pay the contractor for the amount of labor time spent by the contractor's employees and subcontractors to perform the work (number of hours times hourly rate), and for materials and equipment used in the project (cost of materials plus the contractor's markup). This methodology is generally used in projects in which it is not possible to accurately estimate the size of the project, or when it is expected that the project requirements would most likely change. As a general business practice, these contracts include back-up documentation of costs; invoices would include number of hours worked and billing rate by position (and company (or subcontractor) timekeeping or payroll records), material or equipment invoices, and other reimbursable documentation for the project.

☐ **Unit Price:** The County agrees to pay a firm total fixed price (inclusive of all costs, including labor, materials, equipment, overhead, etc.) for a repetitive product or service delivered (i.e. installation price per ton, delivery price per package or carton, etc.). The

invoice must identify the unit price and the number of units received (no contractor inventory or cost verification).

4.2 Any County agency may obtain services under this Agreement, provided sufficient funds are included in their budget(s).

4.3 Payments will be made for services furnished, delivered, and accepted, upon receipt and approval of invoices submitted on the date of services or within six (6) months after completion of the Agreement. Any untimely submission of invoices beyond the specified deadline period is subject to non-payment under the legal doctrine of "laches" as untimely submitted. Time shall be deemed of the essence with respect to the timely submission of invoices under this Agreement.

4.4 The County, or any duly authorized agents or representatives of the County, shall have the right to conduct an audit of Contractor's books and records to verify the accuracy of the Contractor's claim with respect to Contractor's costs associated with any Payment Application, Change Order, or Work Directive Change.

5. **SALES TAX.** Contractor shall pay all sales, consumer, use and other similar taxes associated with the Work or portions thereof, which are applicable during the performance of the Work.  - B. When required by Owner, the Contractor shall furnish a Performance and/or Payment Bond prior to commencing performance, for the full amount of the Work, which shall act as a security guaranteeing the performance of the Contractor's work and the payment by the Contractor to any other party(ies) providing labor and/or materials in connection with each construction or renovation project performed by the Contractor. The bonds shall be furnished using the forms prescribed in Exhibit "C-1" and Exhibit "C-2".
 - C. If the surety for any bond furnished by Contractor is declared bankrupt, becomes insolvent, its right to do business in the State of Florida, terminates or it ceases to meet the requirements imposed by the Contract Documents, the Contractor shall, within five (5) calendar days thereafter, substitute another bond and surety, both of which shall be subject to the Owner's approval.
23. ☒ **LIQUIDATED DAMAGES.** The "Commencement Date" shall be established in the Notice to Proceed to be issued by the Owner. Contractor shall commence the work within five (5) calendar days from the Commencement Date. No Work shall be performed at the Project site prior to the Commencement Date. Any Work performed by Contractor prior to the Commencement Date shall be at the sole risk of Contractor.

The Work shall be substantially completed within the time specified in the Request for

Quotation/Scope of Work. The date of substantial completion of the Work (or designated portions thereof) is the date certified by the Owner when construction is sufficiently complete, in accordance with the definition set forth herein, and so Owner can occupy or utilize the Work (or designated portions thereof) for the use for which it is intended. The Work shall reach final completion and be ready for final acceptance by Owner within the time specified in the Request for Quotation/Scope of Work.

Owner and Contractor recognize that since time is of the essence for any work under this Agreement, Owner will suffer financial loss if the Work is not substantially completed within the time specified in the Request for Quotation. Should Contractor fail to substantially complete the Work within the specified time period, Owner shall be entitled to assess as liquidated damages, but not as a penalty, the amount specified in the Request for Quotation/Scope of Work for each calendar day thereafter until substantial completion is achieved.

The Project shall be deemed to be substantially completed on the date the Owner issues a Certificate of Substantial Completion pursuant to the terms hereof. Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of the Owner's actual damages at the time of contracting if Contractor fails to substantially complete the Work in a timely manner.

When any period of time is referenced by days herein, it shall be computed to exclude the first day and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation, and the last day shall become the next succeeding day which is not a Saturday, Sunday or legal holiday.

24. **■ PAYMENTS.** Generally, the Contractor will be paid upon completion as provided in this Agreement; however, for Work anticipated to take in excess of thirty (30) days, the Contractor may request to receive Progress Payments. The first Application for Payment shall be submitted no earlier than thirty (30) days after the issuance of the Notice to Proceed (unless the Work is fully completed in less than 30 days), and monthly thereafter, but not more often than once a month or prior to substantial completion being met. Notwithstanding anything herein to the contrary, if approved by Owner in its sole discretion, Contractor may submit its invoice for any required Payment and Performance Bonds prior to the first Application of Payment provided that Contractor has furnished Owner certified copies of the receipts evidencing the premium paid by Contractor for the bonds.

If the Contractor requests Progress Payments, the Contractor shall submit to the Project Manager a final Schedule of Values (see Exhibit E-2) within ten (10) calendar days after the issuance of the Notice to Proceed. The Schedule of Values shall be satisfactory in form and substance to the Project Manager and shall subdivide the Work into component parts in sufficient detail to serve as the basis for measuring quantities in place and calculating amounts for the Contractor's monthly progress payments during construction. Further, it shall include the list of its Subcontractors and materialmen submitted with its Bid showing

the work and materials involved and the dollar amount of each subcontract and purchase order. Contractor acknowledges and agrees that any modifications to the list of Subcontractors submitted with Contractor's quote and any subsequently identified Subcontractors are subject to Owner's prior written approval.

Unsupported or unreasonable allocation of the quoted price to any one activity shall be justification for rejection of the Schedule of Values. The Contractor shall not submit an unbalanced Schedule of Values which provides for overpayment to the Contractor on activities that would be performed first. The Schedule of Values shall be revised and resubmitted until acceptable to the Project Manager. Once the schedule has been accepted by the Project Manager, the Owner reserves the right (at its option) throughout the Contract to require that the Contractor honor a particular price contained in the Schedule of Values, if the activity pertaining to it is being deleted or modified. Upon approval of the Schedule of Values by the Project Manager, it shall be incorporated into the form of Application for Payment attached to the Agreement (Exhibit E-1) and shall be used as the basis for the Contractor's monthly Applications for Payment. The schedule shall be updated and submitted each month along with a completed copy of the Application for Payment form signed by the Contractor's authorized representative.

- 24.1 Contractor shall submit its Application for Payment to the Project Manager or his or her designee, as directed by Owner (which designee may include the Design Professional). Within twenty (20) business days after the date of each Application for Payment is stamped as received, and within the timeframes set forth in Section 218.735 F.S., the Project Manager, or Design Professional, shall either: (1) Indicate its approval of the requested payment; (2) indicate its approval of only a portion of the requested payment, stating in writing its reasons therefor; or (3) return the Application for Payment to the Contractor indicating, in writing, the reason for refusing to approve payment. Payments of proper invoices shall be processed in accordance with Section 218.735, F.S. and the terms of the Contract Documents.
- 24.2 In the event of a total denial by Owner and return of the Application for Payment by the Project Manager, the Contractor may make the necessary corrections and re-submit the Application for Payment. The Owner shall, within ten (10) business days after the Application for Payment is stamped and received and after Project Manager approval of an Application for Payment, pay the Contractor the amounts so approved.
- 24.3 Owner shall withhold retainage on the gross amount of each monthly progress payment in the amount of five percent (5%), as permitted by Section 255.078, F.S. The foregoing does not prohibit Owner from withholding retainage at a rate less than five percent (5%) of each monthly progress payment as otherwise allowable under Section 255.078, F.S.. Any reduction in retainage below the maximum amount set forth in Section 255.078, F.S. shall be at the sole discretion of the Owner. Such retainage shall be accumulated and not released to Contractor until final payment is due unless otherwise agreed to by the Owner in accordance with Section 255.078, F.S. or otherwise required pursuant to Section 218.735(7), F.S. Any interest earned on retainage shall accrue to the benefit of the Owner.

- 24.4 Payments to Contractor shall in no way imply approval or acceptance of Contractor's Work.
- 24.5 Each Application for Payment shall be accompanied by a Release and Affidavit, in the form attached as Exhibit D, acknowledging Contractor's receipt of payment in full for all materials, labor, equipment and other bills that are then due and payable by Owner with respect to the current Application for Payment. Further, to the extent directed by Owner and in Owner's sole discretion, Contractor shall also submit a Release and Affidavit from each Subcontractor, sub-subcontractor, or supplier in the form attached as Exhibit D acknowledging that each Subcontractor, sub-subcontractor, or supplier has been paid in full through the previous month's Application for Payment. The Owner shall not be required to make payment until and unless these affidavits are furnished by Contractor.
- 24.6 Notwithstanding anything in the Contract Documents to the contrary, Contractor acknowledges and agrees that in the event of a dispute concerning payments for Work performed under this Agreement, Contractor shall continue to perform the Work required of it under this Agreement pending resolution of the dispute provided that Owner continues to pay Contractor all amounts that Owner does not dispute are due and payable.
- 24.7 Unless expressly approved by Owner in advance and in writing, said approval at Owner's sole discretion, Owner is not required to make any payment for materials or equipment that have not been incorporated into the Project. If payment is requested on the basis of materials and equipment not incorporated into the Project, but delivered and suitably stored at the site or at another location agreed to by the Owner in writing, the Application for Payment shall also be accompanied by a bill of sale, invoice or other documentation warranting that the Owner has received the materials and equipment free and clear of all liens, charges, security interests and encumbrances, together with evidence that the materials and equipment are covered by appropriate property insurance and other arrangements to protect Owner's interest therein, all of which shall be subject to the Owner's satisfaction. Thereafter, with each Application for Payment, Contractor also shall complete and submit to Owner as part of its Application for Payment, the Stored Materials Record form attached hereto and made a part hereof as Exhibit E-3.
- Subject to the foregoing, payments will be made for services furnished, delivered, and accepted, upon receipt and approval of invoices submitted on the date of services or prior to final completion. Time shall be deemed of the essence with respect to the timely submission of invoices under this agreement.
- 24.8 The Owner may, at its discretion, use VISA/MASTER card credit network as a payment vehicle for goods and/or services purchased as a part of this contract. The Owner may not accept any additional surcharges (credit card transaction fees) as a result of using the Owner's credit card for transactions relating to this agreement.
25. **PAYMENTS WITHHELD**. Owner may decline to approve any application for payment, or portions thereof, because of defective or incomplete work, outstanding punchlist items, subsequently discovered evidence or subsequent inspections. The Owner may nullify the

whole or any part of any approval for payment previously issued and Owner may withhold any payments otherwise due to Contractor under this Agreement or any other Agreement between Owner and Contractor, to such extent as may be necessary in the Owner's opinion to protect it from loss because of: (a) defective Work not remedied; (b) third party claims failed or reasonable evidence indicating probable filing of such claims; (c) failure of Contractor to make payment properly to subcontractors or for labor, materials or equipment; (d) reasonable doubt that the Work can be completed for the unpaid balance of the Contract Amount; (e) reasonable indication that the Work will not be completed within the Contract Time; (f) unsatisfactory prosecution of the Work by the Contractor; or (g) any other material breach of the Contract Documents.

If any conditions described above are not remedied or removed, Owner may, after three (3) days written notice, rectify the same at Contractor's expense. Owner also may offset against any sums due Contractor the amount of any liquidated or unliquidated obligations of Contractor to Owner, whether relating to or arising out of this Agreement or any other Agreement between Contractor and Owner.

If a subcontractor is a related entity to the Contractor, then the Contractor shall not mark-up the subcontractor's fees. A related entity shall be defined as any Parent or Subsidiary of the Company and any business, corporation, partnership, limited liability company or other entity in which the Company or a Parent or a Subsidiary of the Company holds any ownership interest, directly or indirectly.

26. **SUBMITTALS AND SUBSTITUTIONS.** Any substitution of products/materials from specifications shall be approved in writing by Owner in advance. If Contractor wishes to furnish or use a substitute item of material or equipment, Contractor shall make application to the Project Manager for acceptance thereof, certifying that the proposed substitute shall adequately perform the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application shall state that the evaluation and acceptance of the proposed substitute will not prejudice Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for use in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with Owner for the Project) to adapt the design to the proposed substitute and whether or not incorporation or use by the substitute in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service shall be indicated. The application also shall contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs for redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the Project Manager in evaluating the proposed substitute. The Project Manager may require Contractor to furnish at Contractor's expense additional data about the proposed substitute.

- 26.1 If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the Contract Documents, Contractor may furnish or utilize a substitute

means, method, sequence, technique or procedure of construction acceptable to the Project Manager, if Contractor submits sufficient information to allow the Project Manager to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedures for submission to and review by the Project Manager shall be the same as those provided herein for substitute materials and equipment.

- 26.2 The Project Manager shall be allowed a reasonable time within which to evaluate each proposed substitute and, if need be, to consult with the Design Professional. No substitute will be ordered, installed or utilized without the Project Manager's prior written acceptance which shall be evidenced by a Change Order, a Work Directive Change, a Field Order or an approved Shop Drawing. The Owner may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute. The Project Manager will record time required by the Project Manager and the Project Manager's consultants in evaluating substitutions proposed by Contractor and making changes in the Contract Documents occasioned thereby. Whether or not the Owner accepts a proposed substitute, Contractor shall reimburse Owner for the charges of the Design Professional and the Design Professional's consultants for evaluating each proposed substitute.

27. **■ CONTRACT TIME AND TIME EXTENSIONS.**

- A. Time is of the essence in the performance of any Work under this Agreement and Contractor shall diligently pursue the completion of the Work and coordinate the Work being done on the Project by its subcontractors and materialmen, as well as coordinating its Work with all work of others at the Project Site, so that its Work or the work of others shall not be delayed or impaired by any act or omission by Contractor. Contractor shall be solely responsible for all construction means, methods, techniques, sequences, and procedures as well as coordination of all portions of the Work under the Contract Documents, and the coordination of Owner's supplies and contractors.
- B. Should Contractor be obstructed or delayed in the prosecution of or completion of the Work as a result of unforeseeable causes beyond the control of Contractor, and not due to its fault or neglect, including but not restricted to acts of Nature or of the public enemy, acts of Government, fires, floods, epidemics, quarantine regulation, strikes or lockouts, Contractor shall notify the Owner in writing within forty-eight (48) hours after the commencement of such delay, stating the cause or causes thereof, or be deemed to have waived any right which Contractor may have had to request a time extension.
- C. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the Work from any cause whatever, including those for which Owner may be responsible, in whole or in part, shall relieve Contractor of his duty to perform or give rise to any right to damages or additional compensation from Owner. Contractor expressly acknowledges and agrees that it shall receive no damages for delay. Contractor's sole remedy, if any, against Owner will be the right

to seek an extension to the Contract Time; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damage for Delay" provision. This paragraph shall expressly apply to claims for early completion, as well as to claims based on late completion.

28. **▣ CHANGES IN THE WORK.** Owner shall have the right at any time during the progress of the Work to increase or decrease the Work. Promptly after being notified of a change, Contractor shall submit an itemized estimate of any cost or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon written order of Owner, and Owner shall not be liable to the Contractor for any increased compensation without such written order. No officer, employee or agent of Owner is authorized to direct any extra or changed work orally. Any modifications to this Agreement shall be in compliance with the County's Procurement Ordinance and Procurement Procedures in effect at the time such modifications are authorized.
- 28.1 In the event a requested change results in an increase to the Contract Amount, the amount of the increase shall be limited to the Contractor's reasonable direct labor and material costs and reasonable actual equipment costs as a result of the change (including allowance for labor burden costs) plus a maximum total markup for all overhead and profit as stated in Exhibit A – Scope of Services.
- 28.2 The Project Manager shall have authority to order minor changes in the Work not involving an adjustment to the Contract Amount or an extension to the Contract Time and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the Contractor.
- 28.3 Any modifications to this Contract shall be in compliance with the County Procurement Ordinance, as amended and the terms of the Contract Documents in effect at the time such modifications are authorized.
- 28.4 For any contract for construction services entered on or after July 1, 2025, the County shall approve or deny a price quote for a Change Order requested or issued by the County within 35 days after receipt of such price quote from the Contractor (receipt commencing the date upon which the County's Project Manager and Department Head receives the price quote) consistent with the prompt processing of Change Orders set forth in Section 218.755, F.S. A denial notice shall specify deficiencies and actions necessary to remedy the deficiencies.
- A Change Order in the form attached as Exhibit "F" to this Agreement, shall be issued and executed promptly after an Agreement is reached between Contractor and Owner concerning the requested changes. Contractor shall promptly perform changes authorized by duly executed Change Orders. The Contract Amount and Contract Time shall be adjusted in the Change Order in the manner as Owner and Contractor shall mutually agree.
29. **▣ CLEAN UP.** Contractor agrees to keep the Project site clean at all times of debris, rubbish and waste materials arising out of the Work. At the completion of the Work,

Contractor shall remove all debris, rubbish and waste materials from and about the Project site, as well as all tools, appliances, construction equipment and machinery and surplus materials, and shall leave the Project site clean and ready for occupancy for County.

30. **STANDARDS OF CONDUCT: PROJECT MANAGER, SUPERVISOR, EMPLOYEES.**
The Contractor shall employ people to work on County projects who are neat, clean, well-groomed and courteous. Subject to the American with Disabilities Act, Contractor shall supply competent employees who are physically capable of performing their employment duties. The County may require the Contractor to remove an employee it deems careless, incompetent, insubordinate or otherwise objectionable and whose continued employment on Collier County projects is not in the best interest of the County.
31. **■ TESTS AND INSPECTIONS.** If the Contract Documents or any codes, laws, ordinances, rules or regulations of any public authority having jurisdiction over the Project requires any portion of the Work to be specifically inspected, tested or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the County the required certificates of inspection, testing or approval. All inspections, tests or approvals shall be performed in a manner and by organizations acceptable to the County.
32. **■ PROTECTION OF WORK.**
- A. Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If Contractor or anyone for whom Contractor is legally liable is responsible for any loss or damage to the Work, or other work or materials of the County or County's separate contractors, Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due Contractor.
 - B. Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent property to stresses or pressures that will endanger it.
 - C. Contractor shall not disturb any benchmark established by the County with respect to the Project. If Contractor, or its subcontractors, agents or anyone, for whom Contractor is legally liable, disturbs the County's benchmarks, Contractor shall immediately notify the County. The County shall re-establish the benchmarks and Contractor shall be liable for all costs incurred by the County associated therewith.
33. **EMERGENCIES.** In the event of any emergency affecting the safety or protection of persons or the Work or property at the Project site or adjacent thereto, Contractor, without special instruction or authorization from Owner is obligated to act to prevent threatened damage, injury or loss. Contractor shall give the Owner written notice within forty-eight (48) hours after the occurrence of the emergency, if Contractor believes that any significant changes in the Work or variations from the Contract Documents have been caused thereby:

If the Owner determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order shall be issued to document

the consequences of the changes or variations.

If Contractor fails to provide the forty-eight (48) hour written notice noted above, the Contractor shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time.

34. **WARRANTY.** Contractor expressly warrants that the goods, materials and/or equipment covered by this Agreement will conform to the requirements as specified, and will be of satisfactory material and quality production, free from defects, and sufficient for the purpose intended. Goods shall be delivered free from any security interest or other lien, encumbrance or claim of any third party. Any services provided under this Agreement shall be provided in accordance with generally accepted professional standards for the particular service. These warranties shall survive inspection, acceptance, passage of title and payment by the County.

Exhibit A, Scope of Services, Section 5, further addresses the Contractor's responsibilities as to Warranty, Extended Warranty & Express Warranties under the Agreement.

Work not conforming to the requirements of the Contract Documents or any warranties made or assigned by Contractor to Owner shall be deemed defective Work. If required by Project Manager, Contractor shall, as directed, either correct all defective Work, whether or not fabricated, installed or completed, or if the defective Work has been rejected by Project Manager, remove it from the site and replace it with non-defective Work. Contractor shall bear all direct, indirect, and consequential costs of such correction or removal (including, but not limited to fees and charges of engineers, architects, attorneys, and other professionals) made necessary thereby, and shall hold Owner harmless for same.

Should the Owner determine, at its sole opinion, it is in the Owner's best interest to accept defective Work, the Owner may do so. Contractor shall bear all direct, indirect, and consequential costs attributable to the Owner's evaluation of and determination to accept defective Work. If such determination is rendered prior to Final Payment, a Change Order shall be executed evidencing such acceptance of such defective Work, incorporating the necessary revisions in the Contract Documents, and reflecting an appropriate decrease in the Contract Amount. If the Owner accepts such defective Work after Final Payment, Contractor shall promptly pay Owner an appropriate amount to adequately compensate Owner for its acceptance of the defective Work.

35. **AGREEMENT TERMS.** If any portion of this Agreement is held to be void, invalid, or otherwise unenforceable, in whole or in part, the remaining portion of this Agreement shall remain in effect.

Construction.

(i) Any doubtful or ambiguous language contained in this Agreement shall not be construed against the party who physically prepared this Agreement. The rule sometimes referred to as "fortius contra proferentum" (pursuant to which ambiguities in a contractual term which appears on its face to have been inserted for the benefit of one of the parties shall be construed against the benefited party) shall not be applied to the

construction of this Agreement.

(ii) Defined Terms: The following Defined Terms used in the Agreement shall be understood to be defined as expressly set forth below. Other terms referenced in the Agreement shall be understood as they may separately be defined herein or if not so defined shall be understood consistent with their natural and ordinary meaning.

Final Acceptance shall be deemed to have taken place only if and when such signature is affixed to such certificate. The Certificate of Final Completion shall be signed only after the Project Manager has assurance by tests, inspection, or otherwise that all of the provisions of the Contract

Documents have been carried out, including completion of the Punch List form, Exhibit G-3.

- (i) "Professional" or "Design Professional" shall mean the professional architectural/engineering firm designated to perform the design, Construction Engineering and Inspection ("CEI") services, by an existing agreement, or resident in-house Owner engineering services for the Work, if applicable. The Punch List is developed by the Contractor, Owner and Professional (if any) in accordance with the provisions of the Contract and within the time frames required therein. The Punch List essentially includes items of a minor nature; major items must be completed before Substantial Completion and cannot be considered to be Punch List work.
- (n) "Schedule of Values" shall mean a schedule showing all activities of the Work subdivided into component parts in sufficient detail to serve as the basis for measuring quantities in place and/or calculating amounts for progress payments during construction. The Work shall be complete, and all work, materials, and services not expressly shown or called for in the Contract Documents, which may be necessary for the complete and proper construction of the Work in good faith, shall be performed, furnished, and installed by the Contractor as though originally so specified or shown, at no increase in cost to the Owner.

(q) "Written Directive" shall mean a written directive and also referred to as work directive, in the form that appears in Exhibit F-2 that is issued to a Contractor from Owner in instances where the parties cannot agree on price and/or costs associated with work arising from differing, unforeseen or emergency site conditions and the work in question is part of the "critical path" of the contract schedule. A written directive should ultimately be followed up with an agreed upon Change Order. A verbal Work Directive may only be issued in extraordinary emergencies when necessary to protect and promote the public interest, which shall be followed up with a written Work Directive within five (5) business days.

36. **ADDITIONAL ITEMS/SERVICES.** Additional items and/or services may be added to this Agreement in compliance with the Procurement Ordinance, as amended, and Procurement Procedures.

37. **DISPUTE RESOLUTION.** Prior to the initiation of any action or proceeding permitted by this Agreement to resolve disputes between the parties, the parties shall make a good faith effort to resolve any such disputes by negotiation. The negotiation shall be attended by representatives of Contractor with full decision-making authority and by County's staff person who would make the presentation of any settlement reached during negotiations to County for approval. Failing resolution, and prior to the commencement of depositions in any litigation between the parties arising out of this Agreement, the parties shall attempt to resolve the dispute through Mediation before an agreed-upon Circuit Court Mediator certified by the State of Florida. The mediation shall be attended by representatives of Contractor with full decision-making authority and by County's staff person who would make the presentation of any settlement reached at mediation to County's board for

approval. Should either party fail to submit to mediation as required hereunder, the other party may obtain a court order requiring mediation under section 44.102, Fla. Stat.

38. **VENUE.** Any suit or action brought by either party to this Agreement against the other party relating to or arising out of this Agreement must be brought in the appropriate federal or state courts in Collier County, Florida, which courts have sole and exclusive jurisdiction on all such matters.
39. **AGREEMENT STAFFING.** The Contractor's personnel and management to be utilized for this Agreement shall be knowledgeable in their areas of expertise. The County reserves the right to perform investigations as may be deemed necessary to ensure that competent persons will be utilized in the performance of the Agreement. The Contractor shall assign as many people as necessary to complete required services on a timely basis, and each person assigned shall be available for an amount of time adequate to meet required services.
40. **ORDER OF PRECEDENCE (Grant Funded).** In the event of any conflict between or among the terms of any of the Contract Documents and/or the County's Board approved Executive Summary, the terms of the Agreement shall take precedence over the terms of all other Contract Documents, except the terms of any Supplemental Conditions shall take precedence over the Agreement. To the extent any conflict in the terms of the Contract Documents cannot be resolved by application of the Supplemental Conditions, if any, or the Agreement, the conflict shall be resolved by imposing the more strict or costly obligation under the Contract Documents upon the Contractor at County's discretion.
41. **ASSIGNMENT.** Contractor shall not assign this Agreement or any part thereof, without the prior consent in writing of the County. Any attempt to assign or otherwise transfer this Agreement, or any part herein, without the County's consent, shall be void. If Contractor does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Contractor all of the obligations and responsibilities that Contractor has assumed toward the County.
42. **SECURITY.** The Contractor is required to comply with County Ordinance 2004-52, as amended. Background checks are valid for five (5) years and the Contractor shall be responsible for all associated costs. If required, Contractor shall be responsible for the costs of providing background checks by the Collier County Facilities Management Division for all employees that shall provide services to the County under this Agreement. This may include, but not be limited to, checking federal, state and local law enforcement records, including a state and FBI fingerprint check, credit reports, education, residence and employment verifications and other related records. Contractor shall be required to maintain records on each employee and make them available to the County for at least four (4) years.

All of Contractor's employees and subcontractors must wear Collier County Government Identification badges at all times while performing services on County facilities and properties. Contractor ID badges are valid for one (1) year from the date of issuance and

can be renewed each year at no cost to the Contractor during the time period in which their background check is valid, as discussed below. All technicians shall have on their shirts the name of the contractor's business.

The Contractor shall immediately notify the Collier County Facilities Management Division via e-mail (DL-FMOPS@colliercountyfl.gov) whenever an employee assigned to Collier County separates from their employment. This notification is critical to ensure the continued security of Collier County facilities and systems. Failure to notify within four (4) hours of separation may result in a deduction of \$500 per incident.

Collier County Sheriff's Office (CCSO) requires separate fingerprinting prior to work being performed in any of their locations. This will be coordinated upon award of the contract. If there are additional fees for this process, the Contractor is responsible for all costs.

43. ☒ **SAFETY.** All Contractors and subcontractors performing service for Collier County are required and shall comply with all Occupational Safety and Health Administration (OSHA), State and County Safety and Occupational Health Standards and any other applicable rules and regulations. Also, all Contractors and subcontractors shall be responsible for the safety of their employees and any unsafe acts or conditions that may cause injury or damage to any persons or property within and around the work site.

Collier County Government has authorized the Occupational Safety and Health Administration (OSHA) to enter any Collier County Facility, property and/or right-of-way for the purpose of inspection of any Contractor's work operations. This provision is non-negotiable by any division/department and/or Contractor. All applicable OSHA inspection criteria apply as well as all Contractor rights, with one exception. Contractors do not have the right to refuse to allow OSHA onto a project that is being performed on Collier County Property. Collier County, as the owner of the property where the project is taking place shall be the only entity allowed to refuse access to the project. However, this decision shall only be made by Collier County's Risk Management Division Safety Manager and/or Safety Engineer.

 - 1.4.18. Minor permitting as necessary to complete the project and/or required by the authority having jurisdiction

The above list is not intended to represent the entire GC portfolio, but rather, a sample of the various responsibilities that a GC may be requested to participate in for a Collier County project.

2. Procedures for Obtaining Work Assignments

- 2.1. The County’s Project Manager will follow the procedure outlined below for obtaining quotes for projects with a value of \$100,000 or less:
 - 2.1.1. A quote will be requested from one (1) of the awarded Contractors on a basis that ensures a relatively even distribution of the work over the term of the contract. Previous experience working on a facility or with a particular specialty may be considered in selection provided the overall goal of a relatively even distribution of the work is still maintained. In these instances, the Division will need to provide justification.
 - 2.1.2. The GC shall respond with the information and/or proposal sought within seven (7) calendar days.
 - 2.1.3. Contractor will commence work upon the County’s issuance of a Purchase Order and Notice to Proceed. The Contractor agrees that any Purchase Order that extends beyond the expiration date of the resultant contract will survive and remain subject to the terms and conditions of the resultant contract until the completion or

termination of work

2.2. For projects with a value of \$100,001 to \$1,000,000:

- 2.2.1. Bid documents such as a Summary of Work, Plans and/or Technical Specifications, etc. will be provided to all of the selected contractors, along with a bid schedule for providing price. Project timeline and the collection of liquidated damages may be specified in the Request for Quotation.
- 2.2.2. The County's Project Manager will set the required response time for each project, but contractors will be given a minimum of ten (10) business days to provide a quote. Other projects may require a longer quoting period to allow for proper coordination. Some projects, urgent in nature, may require a shorter response schedule at the Project Manager's discretion. This period may also include a pre-bid meeting.
- 2.2.3. GC shall provide a completed bid schedule based on the quote schedule provided, including any identified unit prices and add/deduct alternates.
- 2.2.4. Ancillary charges may be transferred to the County in the actual amount; however, mark-ups will not be allowed. Mark-ups will not be allowed on sales tax, consumer fees or taxes, use and other similar taxes, or fees associated with any work under this Agreement.
- 2.2.5. The County's Project Manager will review all the quotes and may negotiate with the Contractor who submits the lowest quote, if outside of the budget.
- 2.2.6. All work assignments that exceed \$500,000 for any one project, will require Board approval.
- 2.2.7. Payment and Performance Bonds will be required for projects over \$200,000 and shall be provided in accordance with F.S. § 255.05.
- 2.2.8. Contractor will commence work upon the County's issuance of a Purchase Order and Notice to Proceed. The Contractor agrees that any Purchase Order that extends beyond the expiration date of the resultant contract will survive and remain subject to the terms and conditions of the resultant contract until the completion or termination of work.

The County reserves the right to waive any or all of these requirements and to separately solicit any job if it's in the best interest of the County. The County reserves the right to supply all necessary parts for selected projects and repairs.

Projects exceeding the \$1,000,000 threshold will be formally solicited unless otherwise approved by the Board of County Commissioners.

3. Procedures for Obtaining Work Assignments when FEMA financial assistance will be used to fund all or a portion of the work under a resultant Purchase Order:

- 3.1. The County's Project Manager will follow the procedure outlined below for obtaining quotes for projects with a value of **\$10,000 or less:**
 - 3.1.1. A quote will be requested from one (1) of the awarded Contractors on a basis that ensures a relatively even distribution of the work over the term of the contract.  - 3.1.2. The Contractor shall respond with the information and/or proposal sought within seven (7) calendar days.
 - 3.1.3. Contractor will commence work upon the County's issuance of a Purchase Order and Notice to Proceed. The Contractor agrees that any Purchase Order that extends beyond the expiration date of the resultant contract will survive and remain subject to the terms and conditions of the resultant contract until the completion or termination of work
- 3.2. For projects with a value over **\$10,000 and up to \$250,000, or a project not exceeding the simplified acquisition threshold amount in place at the time of the disaster**, and as set forth by the Federal Acquisition Regulation at 48 CFR subpart 2.1, whichever amount is greater:

- 3.2.1. Bid documents such as a Summary of Work, Plans and/or Technical Specifications, etc. will be provided to all of the selected contractors, along with a bid schedule for providing price. Project timeline and the collection

of liquidated damages may be specified in the Request for Quotation.

- 3.2.2. The County's Project Manager will set the required response time for each project, but contractors will be given a minimum of ten (10) business days to provide a quote. This period may also include a pre-bid meeting.
- 3.2.3. The Contractor shall provide a completed bid schedule based on the quote schedule provided, including any identified unit prices and add/deduct alternates.
- 3.2.4. Ancillary charges may be transferred to the County in the actual amount; however, mark-ups will not be allowed. Mark-ups will not be allowed on sales tax, consumer fees or taxes, use and other similar taxes, or fees associated with any work under this Agreement.
- 3.2.5. The County's Project Manager will review all quotes received, and **if a minimum of three responsive quotes are not received**, or if the lowest quote is outside the budget, the County may re-quote the project or formally solicit.
- 3.2.6. Payment and Performance Bonds will be required for projects over \$200,000 and shall be provided in accordance with F.S. § 255.05.
- 3.2.7. Contractor will commence work upon the County's issuance of a Purchase Order and Notice to Proceed. The Contractor agrees that any Purchase Order that extends beyond the expiration date of the resultant contract will survive and remain subject to the terms and conditions of the resultant contract until the completion or termination of work.
- 3.2.8. The County reserves the right to waive any or all of these requirements and to separately solicit any job if it's in the best interest of the County. The County reserved the right to supply all necessary parts for selected projects and repairs.
- 3.2.9. **Projects exceeding \$250,000, or a project exceeding the simplified acquisition threshold amount in place at the time of the disaster, and as set forth by the Federal Acquisition Regulation at 48 CFR subpart 2.1, whichever amount is greater, will be formally solicited and publicly advertised by the County, in accordance with Procurement Ordinance, as amended. The bid opportunity will be open to qualified bidders beyond the pool of vendors awarded under the resultant agreement for this solicitation.**

The above quoting procedures and thresholds may not apply during Exigent or Emergency (E&E) Circumstances, as determined by the County. In such a situation, the County reserves the right to forego quoting procedures and issue a Purchase Order to one of the qualified Contractors under the resultant agreement to perform the work necessary to address the E&E circumstances.

4. Price Methodology

The Contractor will be compensated for a Lump Sum, Unit Price, and Time and Material Not to Exceed (T&M NTE) work, as applicable, including material and specialty equipment markup.

For Unit Price work included in a bid schedule, the contractor shall include all costs associated with providing the requested item in a full and complete manner. This shall be priced to the extent that if the items quantity is increased or decreased during the course of the project, the contractor shall increase or decrease the charge for the associated item only by the amount listed as the unit price.

4.1. Price Increases:

The Procurement Director or designee has the authority to approve price adjustments in accordance with the Procurement Ordinance, as amended. Price increase requests are not guaranteed. If approved, the Contractor will be notified in writing with the effective date of any approved price increases.

The County may, after examination, refuse to accept the adjusted rates if they are not properly documented, or considered to be excessive, or if decreases are considered to be insufficient. Exhibit J- GENERAL TERMS AND CONDITIONS

1. INTENT OF CONTRACT DOCUMENTS.

1.1 It is the intent of the Contract Documents to describe a functionally complete Project (or portion thereof) to be constructed in accordance with the Contract Documents. Any work, materials or equipment that may reasonably be inferred from the Contract Documents as being required to produce the intended result shall be supplied whether or not specifically called for. When words which have a well-known technical or trade meaning are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization, or association or to the laws or regulations of any governmental authority having jurisdiction over the Project, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in effect at the time the Work is performed, except as may be otherwise specifically stated herein.

1.2 If before or during the performance of the Work Contractor discovers a conflict, error or discrepancy in the Contract Documents, Contractor immediately shall report same to the Project Manager in writing and before proceeding with the Work affected thereby shall obtain a written interpretation or clarification from the Project Manager; said interpretation or clarification from the Project Manager may require Contractor to consult directly with Design Professional or some other third party, as directed by Project Manager. Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents before commencing any portion of the Work.

1.3 Drawings are intended to show general arrangements, design and extent of Work and are not intended to serve as shop drawings. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the Work, trades, subcontracts, or extent of any part of the Work. In the event of a discrepancy between or among the drawings, specifications or other Contract Document provisions, Contractor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the Contractor, as determined by the Project Manager. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the Work to make a complete, serviceable, finished and first quality installation shall be furnished and installed as part of the Work, whether or not called for by the Contract Documents.

2. INVESTIGATION AND UTILITIES.

2.1 Subject to Section 2.3 below, Contractor shall have the sole responsibility of satisfying itself concerning the nature and location of the Work and the general and local conditions, and particularly, but without limitation, with respect to the following: those affecting transportation, access, disposal, handling and storage of materials; availability and quality of labor; water and electric power; availability and condition of roads; work area; living facilities; climatic conditions and seasons; physical conditions at the work-site and the project area as a whole; topography and ground surface conditions; nature and quantity of the surface materials to be encountered; subsurface conditions; equipment and facilities needed preliminary to and during performance of the Work; and all other costs associated with such performance. The failure of Contractor to acquaint itself with any applicable conditions shall not relieve Contractor from any of its responsibilities to perform under the Contract Documents, nor shall it be considered the basis for any claim for additional time or compensation.

2.2 Contractor shall locate all existing roadways, railways, drainage facilities and utility services above, upon, or under the Project site, said roadways, railways, drainage facilities and utilities being referred to herein as the "Utilities". Contractor shall contact the owners of all Utilities to determine the necessity for relocating or temporarily interrupting any Utilities during the construction of the Project. Contractor shall schedule and coordinate its Work around any such relocation or temporary service interruption. Contractor shall be responsible for properly shoring, supporting, and protecting all Utilities at all times during the course of the Work. The Contractor is responsible for coordinating all other utility work so as to not interfere with the prosecution of the Work (except those utilities to be coordinated by the Owner as may be expressly described elsewhere in the Contract Documents).

2.3 Notwithstanding anything in the Contract Documents to the contrary, if conditions are encountered at the Project site which are (i) subsurface or otherwise concealed physical conditions which differ materially from those indicated in the Contract Documents or (ii) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the Contract Documents, and which reasonably should not have been discovered by Contractor as part of its scope of site investigative services required pursuant to the terms of the Contract Documents, then Contractor shall provide Owner with prompt written notice thereof before conditions are disturbed and in no event later than three (3) calendar days after first observance of such conditions. Owner and Design Professional shall promptly investigate such conditions and, if they differ materially and cause an increase or decrease in Contractor's cost of, or time required for, performance of any part of the Work, Owner will acknowledge and agree to an equitable adjustment to Contractor's compensation or time for performance, or both, for such Work. If Owner determines that the conditions at the site are not materially different from those indicated in the Contract Documents or not of an unusual nature or should have been discovered by Contractor as part of its investigative services, and that no change in the terms of the Agreement is justified, Owner shall so notify Contractor in writing, stating its reasons. Claims by Contractor in opposition to such determination by Owner must be made within seven (7) calendar days after Contractor's receipt of Owner's written determination notice. If Owner and Contractor cannot agree on an adjustment to Contractor's cost or time of performance, the dispute resolution procedure set forth in the Contract Documents shall be complied with by the parties.

3. SCHEDULE.

3.1 If the Work is projected to take more than one month (30 days), the Contractor, within ten (10) calendar days after the issuance of a Notice to Proceed, shall prepare and submit to Project Manager, for their review and approval, a progress schedule for the Project (herein the "Progress Schedule"). The Progress Schedule shall relate to all Work required by the Contract Documents and shall utilize the Critical Path method of scheduling and shall provide for expeditious and practicable execution of the Work within the Contract Time.

3.2 If the work is projected to take more than one month (30 days), the Progress Schedule shall be updated monthly by the Contractor. All monthly updates to the Progress Schedule shall be subject to the Project Manager's review and approval. Contractor shall submit the updates to the Progress Schedule with its monthly Applications for Payment noted below. For Projects taking more than one month (30 days), the Project Manager's review and approval of the submitted Progress Schedule updates shall be a condition precedent to the Owner's obligation to pay Contractor.

3.3 All work under this Agreement shall be performed in accordance with the requirements of all Collier County Noise Ordinances then in effect. Unless otherwise specified, work will generally be limited to the hours of 7 a.m. to 7 p.m., Monday through Saturday. No work shall be performed outside the specified hours without the prior approval of the Project Manager and no overtime reimbursement is authorized for work performed under this agreement.

4. COMPLETION.

Substantial Completion and Development of the Punch List

4.1 Substantial Completion is as defined in the Defined Terms section of this Agreement. When the Contractor believes Substantial Completion has been achieved, it shall certify in writing to the Project Manager that the Project is Substantially Complete in accordance with the Contract Documents and request the Project Manager to inspect the Work and to issue a Certificate of Substantial Completion. Prior to making such a request the Contractor must:

4.2 Complete all Work necessary for the safe, proper and complete use or operation of the Project as intended, including: all regulatory agency requirements are satisfied, including occupancy permits; operating certificates and similar releases; all operational testing has successfully occurred; all required training has successfully occurred; all close-out documents (such as as-built drawings, certifications, warranties, guaranties, test reports test logs, operational manuals, etc.) have been provided by Contractor and accepted by Owner.

4.3 Prepare a Contractor-generated punch list (i.e., a list of all items required to render the Project complete, satisfactory, and acceptable, for submission with the request for inspection and issuance of a certificate of Substantial Completion), which shall include and list separately the estimated cost to complete each remaining unfinished item included on the list with an explanation as to the basis for those costs, substantiated by the Schedule of Values, subject to the Owner's final review and approval as stated below.

4.4 Upon receipt of the request from the Contractor, the Project Manager, assisted by the Professional, if any, and other Owner personnel, as appropriate, shall review the request, the Work and the Contractor-generated punch list to determine whether the Work is ready for Substantial Completion inspection. If this review fails to support Substantial Completion inspection, the Project Manager shall so notify the Contractor citing the reasons for rejection. If the Project Manager and Professional (if any) determine the Work is ready for Substantial Completion inspection, the following procedures will be followed:

4.5 The Project Manager will, within a reasonable time, schedule, and conduct inspection(s) of the Work with the Professional (if any), other Owner personnel as required, and the Contractor for the purpose of formally reviewing the status of completion of the Work, the readiness of the Project for use and the Contractor-generated punch list. A copy of the Contractor-generated punch list will be provided to all participants and any additional items noted during the inspection will be added to the list. The Project Manager, the Professional, their representatives and other Owner representatives will review the Work and the Contractor-generated punch list to assure all deficiencies are noted on a final Punch List document (Exhibit G-3 Punch List Form, the "Punch List"). The Punch List must include all items required to render the Project complete, satisfactory and acceptable. If Project Manager and Contractor disagree on whether an item belongs on the Punch List, the Project Manager has the final say on whether the item is included or not. The Punch List shall be finalized and issued to the Contractor by the Owner within the time frames indicated below.

4.6 If upon completion of the inspection(s) the Owner does not consider the Project Substantially Complete, the Project Manager will notify the Contractor in writing giving reasons why the Project is not Substantially Complete.

4.7 If, upon completion of the inspection(s), the Owner considers the Project Substantially Complete, the Project Manager shall prepare a Certificate of Substantial Completion to establish the date for Substantial Completion as the date of the completed inspection(s). The Certificate of Substantial Completion shall be

approved by the Owner upon the signature of both the Project Manager and the Professional (if applicable) and shall be issued to the Contractor. The Certificate shall fix the date of Substantial Completion.

4.8 Substantial Completion cannot occur until all conditions necessary for safe and proper use, occupancy, maintenance, and operations are in place.

5. The Punch List

5.1 Time Frames for Issuance of the Punch List

a. The Owner shall issue the Punch List to the Contractor within the time frames described below, provided that the Contractor has completed its obligations in providing a proper contractor-generated Punch List prior to the Substantial Completion inspection.

b. For construction estimated to cost less than ten million dollars (\$10,000,000.00), the Punch List must be developed within thirty (30) Days after the Substantial Completion date and delivered to the Contractor five (5) days thereafter.

c. For construction projects involving more than one building or structure or multiple phases, the Punch List must be prepared for each building, structure or phase within thirty (30) Days of the Substantial Completion date of a particular building, structure or phase if it is estimated to cost less than ten million dollars (\$10,000,000.00) or within forty-five (45) Days if it is estimated to cost more than ten million dollars (\$10,000,000.00), and delivered to the Contractor five (5) days thereafter.

d. If the development of the Punch List takes the full amount of time designated (or a portion thereof) and includes a tentative punch-list based upon the above dollar amount thresholds, the delivery of the Punch List of items shall be delivered by the Owner no later than five (5) business days thereafter. Within twenty (20) business days after the delivery of the Punch List to the Contractor, the Owner must pay the Contractor the remaining contract balance owed, that includes all retainage previously withheld by Owner less an amount equal to 150 percent (150%) of the estimated cost to complete the items on the Punch List. At the same time the Owner delivers the Punch List, Contractor shall submit a payment application requesting that Owner pay the Contractor the remaining contract balance owed including all retainage previously held by Owner less an amount equal to 150 percent (150%) of the estimated cost to complete the items on the Punch List. Warranty items may not affect the final payment retainage as provided herein. Owner is not required to pay or process any payment request for retainage if the Contractor has failed to cooperate with Owner in the development of the list or failed to perform its contractual responsibilities with regard to the development of a list or if Section 255.078(3), F.S., applies.

e. The failure to include any corrective work or pending items not yet completed on the Punch List does not alter the responsibility of Contractor to complete all the construction services purchased pursuant to the Contract Documents.

f. Owner shall have the right to exclude Contractor from the Work and Project site (or designated portion thereof) after the date of Substantial Completion, but Owner shall allow Contractor reasonable access to complete or correct items on the Punch List. The Project Manager, shall coordinate with the Contractor the return of any surplus assets, including materials, supplies, and equipment.

5.2 Completion of Punch List Work and Release of Remaining Contract Balance

a. Upon completion of the Punch List Work, the Contractor shall certify in writing to the Project Manager that all Punch List Work has been completed in accordance with the Contract Documents and

request the Project Manager to inspect the Work and to approve Punch List completion. If, in the Project Manager's opinion, the Work is not ready for such inspection, the Project Manager will so inform the Contractor, giving reasons for such opinion. If the Project Manager is satisfied that an inspection is warranted, the Project Manager will, within a reasonable time, schedule and conduct inspection(s) of the facility with representatives of the Owner's user department, the Professional (if any), and the Contractor, for the purpose of formally reviewing the completion of Punch List Work. If the Project Manager and the Contractor disagree on whether an item remains incomplete, the Project Manager has the final say on whether the item is complete or not.

b. If, upon completion of the inspection(s) the Owner does not consider the Punch List Work complete, the Project Manager will notify the Contractor in writing giving specific reasons why the Punch List Work is not complete.

c. Upon completion of all items on the Punch List, the Contractor may submit a Payment Request for the remaining amount withheld by the Owner. If a good-faith dispute exists as to whether one or more items identified on the list have been completed pursuant to the Contract Documents, the Owner may continue to withhold an amount not to exceed one hundred and fifty percent (150%) of the total costs to complete such items. This remaining balance of retainage may be requested by the Contractor in its Application for Final Payment after Final Acceptance of the Work by Owner (Exhibit G-2 Certificate of Final Completion).

d. All items that require correction under the Contract Documents and that are identified after the preparation and delivery of the Punch List shall remain the obligation of the Contractor.

e. Warranty Items may not affect the Final Payment of retainage pursuant to Section 218.735(7)(f), F.S.

f. If the Owner fails to comply with its responsibilities to assist in developing the Punch List within the time frame applicable to the Project (as described above), the Contractor may submit a request for all remaining retainage withheld by the Owner. The Owner need not pay or process any payment request for retainage if Contractor has, in whole or part, failed to cooperate with the Owner in development of the Punch List or failed to perform its contractual responsibilities with regard to development of the Punch List. Additionally, the Owner does not have to pay or release any amounts that are the subject of a good-faith dispute, the subject of a claim brought pursuant to Section 255.05, F.S., or otherwise the subject of a claim or demand by the Owner or Contractor.

6. Final Completion

a. Upon written notice from the Contractor that the Project is complete, the Project Manager shall schedule a final inspection with the Contractor, the Design Professional, and any other personnel requested by the Project Manager. The Project Manager shall notify the Contractor in writing of any Work this inspection reveals to be defective, or otherwise not in accordance with the Contract Documents. The Contractor shall immediately take such action as may be necessary to remedy such defects and bring the Project into full compliance with the Contract Documents and then request another inspection.

b. Final Completion of the Work shall be achieved by the Contractor when all the Work required under the Contract Documents has been satisfactorily completed, including all Punch List work.

c. After the Project Manager has determined that all Work has been completed, the Project Manager will issue a Certificate of Final Completion Exhibit G-2 for the Work.

7. Application for Final Payment

a. After the Certificate of Final Completion, Exhibit G-2 for the Work has been issued by the Project Manager, the Contractor may make Application for Final Payment following the procedure for progress payments. As an explicit condition precedent to the accrual of Contractor's right to Final Payment, Contractor shall have furnished Owner with a properly executed and notarized copy of the Release and Affidavit form attached as Exhibit D, as well as a duly executed copy of the Surety's consent to Final Payment (if applicable) and such other documentation that may be required by the Contract Documents, including but not limited to:

- (1) Receipt of Contractor's Final Application for Payment.
- (2) The Release and Affidavit in the form attached as Exhibit D.
- (3) Consent of surety to Final Payment (If applicable).
- (4) Receipt of the Final Payment Check list, Exhibit G-4.
- (5) If required by Owner, other data establishing payment or satisfaction of all obligations, such as receipts, releases and waivers of liens, arising out of the Contract Documents, to the extent and in such form as may be designated by Owner.

Prior to release of Final Payment, the Contractor's Representative and the Project Manager shall jointly complete the Final Payment Checklist, a representative copy of which is attached to this Agreement as Exhibit G-4.

8. Approval of Final Payment

a. If, on the basis of the Project Manager's observations and review of Work during Construction, final inspection, and review of the Application for Final Payment (all as required by the Contract Documents), the Project Manager is satisfied that the Work has been completed and the Contractor has fulfilled all of its obligations under the Contract Documents, the Project Manager will, within ten (10) days after receipt of the Application for Final Payment, indicate in writing that the entire remaining balance is found to be due and payable to the Contractor and approve payment. Otherwise, the Project Manager will return the Application to the Contractor, indicating in writing the reason for refusing to approve Final Payment, in which case the Contractor will make the necessary corrections and resubmit the Application. Owner reserves the right to inspect the Work and make an independent determination as to the Work's acceptability, even though the Design Professional (if applicable) may have issued its recommendations.

b. Contractor's acceptance of Final Payment shall constitute a full waiver of any and all claims by Contractor against Owner arising out of this Agreement or otherwise relating to the Project, except those previously made in writing in accordance with the requirements of the Contract Documents and identified by Contractor as unsettled in its final Application for Payment. Neither the acceptance of the Work nor payment by Owner shall be deemed to be a waiver of Owner's right to enforce any obligations of Contractor hereunder or to the recovery of damages for defective Work not discovered by the Design Professional or Project Manager at the time of final inspection.

c. The Contractor's obligation to perform the Work and complete the Project in accordance with the Contract Documents shall be absolute. Neither approval of any progress or Final Payment, the issuance of a Certificate of Substantial Completion, any payment by the Owner to the Contractor under the Contract Documents, any use or occupancy of the Project or any part thereof by the Owner, the issuance of a Final Completion, any act of acceptance by the Owner, any failure to do so, nor any correction of defective Work by the Owner shall constitute an acceptance of Work not in accordance with the Contract Documents.

Florida Trench Safety Act Certification and Disclosure Statement

The undersigned Contractor/Bidder acknowledges and will comply with the requirements of the Florida Trench Safety Act, Section 553.60 et. seq., Florida Statutes (hereafter the "Act"), as amended.

A. The Contractor/Bidder further acknowledges that the Act establishes the Federal excavation safety standards set forth at 29 C.F.R. Section 1926.650, Subpart P, including all subsequent revisions or updates to those standards as adopted by the Department of Employment Security, or any successor agency. The State of Florida standard may be supplemented by special shoring requirements established by the State of Florida or any of its political subdivisions, to which Contractor/Bidder agrees it shall adhere.

B. By submission of its bid and the subsequent execution of the Agreement to provide construction services, the Contractor/Bidder certifies that all trench excavation done within its control shall be accomplished in strict adherence with all excavation/trench safety standards.

C. The Contractor/Bidder also agrees that it has obtained or will obtain identical certification from its proposed Subcontractors that will perform trench excavation work prior to its award of the subcontracts and that Contractor/Bidder will retain such certifications in its files for a period of not less than three years following final acceptance.

D. The Contractor/Bidder shall consider all available geotechnical data available and all other relevant information in its design of the trench excavation safety system. The Contractor/Bidder acknowledges sole responsibility for the selection of the data on which it relies in designing the trench excavation safety system.

E. Contractor/Bidder acknowledges and certifies that it has set forth and includes the below listed excavation/trench safety measures and the linear feet of trench excavated under each safety measure. Those units, costs, and unit values are disclosed solely for the purpose of compliance with the procedural requirements of the Act. The amounts disclosed as the cost of compliance with the requirements of the Act does not constitute the extent of the Contractor/Bidder's obligation to comply with the trench safety standards. The Contractor/Bidder shall extend additional sums at no additional cost to the County, if necessary, to comply with the Act. No adjustment to the contract time or price shall be made for any difference in the actual number of linear feet of trench excavation, except as may be otherwise provided in the Contract Documents.

F. Acceptance of the bid and award of the Agreement to which this certification and disclosure statement applies in no way represents that the County or its representatives have evaluated and thereby determined that the below costs are adequate to comply with the applicable trench safety requirements nor does it in any way relieve the Contractor/Bidder of its sole responsibility to comply with the applicable trench safety requirements.

Access to Records: 1) The contractor agrees to provide the County, the Florida Department of Emergency Management, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions. (2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed. (3) The contractor agrees to provide the FEMA Administrator or his authorized representatives' access to construction or other work sites pertaining to the work being completed under the contract. (4) In compliance with section 1225 of the Disaster Recovery Act of 2018, the County and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

Buy Clean: The County encourages the use of environmentally friendly construction practices in the performance of this Agreement. In particular, the County encourages that the performance of this agreement includes considering the use of low-carbon materials which have substantially lower levels of embodied greenhouse-gas emissions associated with all relevant stages of production, use, and disposal, as compared to estimated industry averages of similar materials or products as demonstrated by their environmental product declaration.

Changes: To be allowable under a FEMA grant or cooperative agreement award, the cost of any contract change, modification, amendment, addendum, change order, or constructive change must be necessary, allowable, allocable, within the scope of the grant or cooperative agreement, reasonable for the scope of work, and otherwise allowable.

DHS Seal, Logo, and Flags: The County must obtain written permission from Department of Homeland Security prior to using the DHS seals, logos, crests, or reproductions of flags, or likenesses of DHS agency officials. For purposes of this section: "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

Build America, Buy America Act (BABAA): FEMA Public Assistance Funding is not subject to Buy America preference pursuant the following guidance: [Programs and Definitions: Build America, Buy America Act | FEMA.gov](#)

No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages and interest from the date of the underpayment. The County may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime contractor or any subcontractor for any unpaid wages; monetary relief, including interest; and liquidated damages required by the clauses set forth in this paragraph (b) on this contract, any other federal contract with the same prime contractor, or any other federally assisted contract subject to the Contract Work Hours and Safety Standards Act that is held by the same prime contractor (as defined in § 5.2). The necessary funds may be withheld from the contractor under this contract, any other federal contract with the same prime contractor, or any other federally assisted contract that is subject to the Contract Work Hours and Safety Standards Act and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld.

 - (E) A contractor's successor(s); or
 - (F) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901-3907.

(4) Subcontracts. The contractor or subcontractor must insert in any subcontracts the clauses set forth in paragraphs (b)(1) through (5) of this section and a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor is responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (5). In the event of any violations of these clauses, the prime contractor, and any subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and associated liquidated damages and may be subject to debarment, as appropriate.

(5) Anti-retaliation. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

(1) The contractor or subcontractor must maintain regular payrolls and other basic records during the course of the work and must preserve them for a period of three years after all the work on the prime contract is completed for all laborers and mechanics, including guards and watchpersons, working on the contract. Such records must contain the name; last known address, telephone number, and email address; and social security number of each such worker; each worker's correct classification(s) of work performed; hourly rates of wages paid; daily and weekly number of hours actually worked; deductions made; and actual wages paid.

(2) Records to be maintained under this provision must be made available by the contractor or subcontractor for inspection, copying, or transcription by authorized representatives of the Department of Homeland Security, the Federal Emergency Management Agency, and the Department of Labor, and the contractor or subcontractor will permit such representatives to interview workers during working hours on the job."

Clean Air Act (over \$150,000): 1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq. 2. The contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office. 3. CONSTRUCTION ACTIVITIES

Equal Employment Opportunity Clause (§60-1.4): Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
