

## COLLIER COUNTY POPULATION – IMPACT ON MARCO ISLAND

### Background

1. Population figures for 2000 and 2010 from U.S. Census.
2. Estimate for 2020 is probably good – right around the corner.
3. Estimate for 2030 provided by Mark Strain, Collier County Planning Commission Chairman, based on permits, applications, and developer plans – pretty much a done deal.

### COLLIER COUNTY POPULATION

### Purpose of Discussion

Take 10 mins. to briefly discuss (1) how we might be able to limit adverse effects on Marco Island by growth in Collier County, (2) what we can do to keep the small-town feel of Marco Island, and (3) the best way to engage Collier County Commissioners on this. *We will not resolve anything in this meeting, but let's get started.*
