**SELF-CERTIFICATION FOR A PROJECT AT A
PRIVATE, RESIDENTIAL SINGLE-FAMILY**

05/07/2020

Self-Certification File No.: 0387605001EE

File Name: 1071 Old Marco Ln Marco Island, FL 34145 - Self-Certification Modify With Boat Lift (General)

Dear **BRIAN GILMORE**: On 05/07/2020 you used the Florida Department of Environmental Protection's electronic Self Certification Process to certify compliance with the terms and conditions of the Federal State Programmatic General Permit (SPGP) Self Certification Process for a project at private, single-family residence located at:

LAT - Degrees: 25 Minutes: 58 Seconds: 2.2452
LONG - Degrees: -81 Minutes: 43 Seconds: 48.4378
SITE ADDRESS: 1071 Old Marco Ln Marco Island, FL 34145
COUNTY: Collier

For:
SCOTT & CYNTHIA SHALLOP
1071 OLD MARCO LN MARCO ISLAND, FL 34145

You have certified that the project you propose to construct at the above location meets all the conditions of the Self-Certification Process. A project that is built in conformance to those conditions (attached for reference) will:

1. Qualify for a regulatory exemption under Section 403.813(1)(b) of the Florida Statutes (F.S.) and Chapter 62-330, Florida Administrative Code (F.A.C.). As such, it is exempt from the need to obtain a DEP Environmental Resource Permit;
2. Qualify for Consent by Rule or Letter of Consent (as applicable) under Chapter 253, F.S. and Chapter 18-21, F.A.C. (and Chapter 258, F.S. and Chapter 18-20, F.A.C., if applicable), when the project is located on submerged lands owned by the State of Florida.

Your Self-Certification is based solely on the information you provided under this process, and applies only to the statutes and rules in effect when your certification was completed. The certification is effective only for the specific project proposed, and only if the project is constructed, operated, and maintained in conformance with all the terms, conditions, and limitations stated in the Self-Certification Process. In addition, any substantial modifications in your plans should be submitted to the Department for review, as changes may result in a permit being required.

You have acknowledged that this Self Certification will automatically expire if:

1. Construction of the project is not completed within one year from the self-certification date;
2. site conditions materially change;
3. the terms, conditions, and limitations of the Self Certification are not followed; or
4. the governing statutes or rules are amended before construction of the project.

Completion of the Self Certification constitutes your authorization for Department or Corps personnel to enter the property for purposes of inspecting for compliance.

Receipt of this Self-Certification constitutes authorization to use sovereignty/state-owned submerged lands, as required by rule 18-21.005, F.A.C.

The authorization must be visibly posted during all construction activities.

In waters that are accessible to manatees, obtain information on your mandatory Manatee Protection sign by [clicking here](#).

FEDERAL STATE PROGRAMMATIC GENERAL PERMIT (SPGP)

You have certified that the project you propose to construct at the above location meets all the conditions of the SPGP Self-Certification Process and will be built in conformance to those conditions (attached for reference). Your proposed activity as certified is in compliance with the SPGP program. U.S. Army Corps of Engineers (Corps) Specific conditions apply to your project, attached. No further permitting for this activity is required by the Corps. Although the construction period for works authorized by Department of the Army permits is finite, the permit itself, with its limitations, does not expire.

Notifications to the Corps. For all authorizations under this SPGP V-R1, including Self-Certifications, the Permittee shall provide the following notifications to the Corps:

- a. Commencement Notification. Within 10 days before the date of initiating the work authorized by this permit or for each phase of the authorized project, the Permittee shall provide a written notification of the date of commencement of authorized work to the Corps
- b. Corps Self-Certification Statement of Compliance form. Within 60 days of completion of the work authorized by this permit, the Permittee shall complete the "Self-Certification Statement of Compliance" form (attached) and submit it to the Corps. In the event that the completed work deviates in any manner from the authorized work, the Permittee shall describe the deviations between the work authorized by this permit and the work as constructed on the "Self-Certification Statement of Compliance" form. The description of any deviations on the "Self-Certification Statement of Compliance" form does not constitute approval of any deviations by the Corps.
- c. Permit Transfer. When the structures or work authorized by this permit are still in existence at the time the property is transferred, the terms and conditions of this permit will continue to be binding on the new owner(s) of the property. To validate the transfer of this permit and the associated liabilities associated with compliance with its terms and conditions, have the transferee sign and date the enclosed form.
- d. Reporting Address. The Permittee shall submit all reports, notifications, documentation, and correspondence required by the general and special conditions of this permit to the following address.
 1. For standard mail: U.S. Army Corps of Engineers, Regulatory Division, Enforcement Section, P.O. Box 4970, Jacksonville, FL 32232-0019.
 2. For electronic mail: SAL-RD-Enforcement@usace.army.mil (not to exceed 10 MB). The Permittee shall reference this permit number, SAL-2015-2575 on all submittals.

This SPGP Self-Certification is based solely on the information you provided under this process, and applies only to the statutes and rules in effect when your certification was completed. You have recognized that your certification is effective only for the specific project proposed, and provided the project is constructed, operated, and maintained in conformance with all the terms, conditions, and limitations stated in the SPGP Self-Certification Process. This Self-Certification will not apply if any substantial modifications are made to the project. You agree to contact the Department for review of any plans to construct additional structures or to modify the project, as changes may result in a permit being required.

You have acknowledged that this Self-Certification will automatically expire if:

1. construction of the project is not completed by midnight, July 25, 2021, unless construction commenced or a contract to construct was executed before July 25, 2021, in which case the time limit for completing the work authorized by the SPGP ends at midnight, July 25, 2022. However, in no case can construction continue for more than one year beyond the Self-Certification date;
2. site conditions materially change;
3. the terms, conditions, and limitations of the Self-Certification are not followed; or
4. the governing statutes or rules are amended before construction of the project.

Completion of the Self-Certification constitutes your authorization for Department or Corps personnel to enter the property for purposes of inspecting for compliance.

if you have any questions, please contact your local Department District Office. Contact information can be found at:
https://floridadep.gov/sites/default/files/SLERC_contacts_web_map_01-2017_0.pdf.

For further information, contact the Corps directly at:
<https://www.saj.usace.army.mil/Missions/Regulatory.aspx>. When referring to your project, please use the SPGP Self-Certification file number listed above.

Authority for review - an agreement with the U.S. Army Corps of Engineers entitled Coordination Agreement between the U. S. Army Corps of Engineers (Jacksonville District) and the Florida Department of Environmental Protection State Programmatic General Permit, Section 10 of the Rivers and Harbor Act of 1899 and Section 404 of the Clean Water Act.

ADDITIONAL INFORMATION

This Self-Certification Process does not relieve you from the responsibility of obtaining other permits or authorizations from other agencies (federal, state, Water Management District, or local) that may be required for the project. Failure to obtain all applicable authorizations prior to construction of the project may result in enforcement.

If you have any questions or issues with the attached documents, please contact your local Department District Office:

South District

SD_ERP_Permit@FloridaDEP.gov

Sincerely,

Florida Department of Environmental Protection.
