Marco Island

Resident: We have owned our home in Smokehouse Bay since 1999. I am now retired, and the time has come for me to do my part in my community to help *define & prioritize problems*, collaborate in *identifying viable solutions*, and support the *design of sustainable results*; all in collaboration with other residents and key stakeholders.

I am applying, to be one of seven Councilors, to assist the City Council in developing & delivering *the best Quality of Life* Marco Island residents can expect. My heart is invested in being part of formulating solutions which are:

- (a) **Fiscally Conservative:** I will leverage my financial analysis experiences to focus on programs that increase property values, and I will advocate for cost-effective proven solutions.
 - (b) **Preserve (& Restore) Water Quality:** I will apply my technical & critical thinking skills to ensure the root of water problems are defined accurately and I will promote, with healthy skepticism, design and implementation of fact-based solutions that arrests (& hopefully restores) deterioration of our waterway – designed with restraint in mind.
 - (c) **Deliver ‘Best-in-Class’ City Services:** I feel my life experiences have given me a basis to design collaborative & efficient organizations, which look at problem solving in creative ways, so greater synergies are achieved. The City Council has an opportunity to produce value for Marco residents if we collaborate more effectively with Collier County Commissioners & coordinate more effectively across Marco Island advisory committees to deliver less duplication of services, greater cross-pollination of knowledge, and higher consistency in services & standards.
- **1999 – Present** – Marco Island homeowner
 - **2016 – Present** – full-time resident
