RE: Racquet Center Court Locking Times

---

Per request, from the March 16, 2021 PRAC meeting, the tennis courts are locked daily for maintenance and watering. Tennis courts 3, 4, 5, and 6 are clay courts that need daily watering with the first water round starting at 1:00 p.m. The courts remain locked until at least 3:00 p.m. and when possible, once the courts are dry and safe for play, they are reopened. The courts are also locked if they have standing water depending on the weather conditions. Courts 7 and 8 are sub irrigated and remain open during watering unless they have standing water.
